Recap of available solutions.

The actors behind Cashless Payment Processes

Basics of Cashless Payment Processes

Differences in PSP and Acquirers

What features are CPOs looking for?

Coverage of Payment Solution
(global vs. regional)

Payment Schemes
(Mastercard, VISA, Girocard,
Bancomat, etc.)

Charger Integration and Compatibility
(Local or Cloud)

Transaction Fees and Cost
(varies by many factors and needs
to be evaluated by CPO)

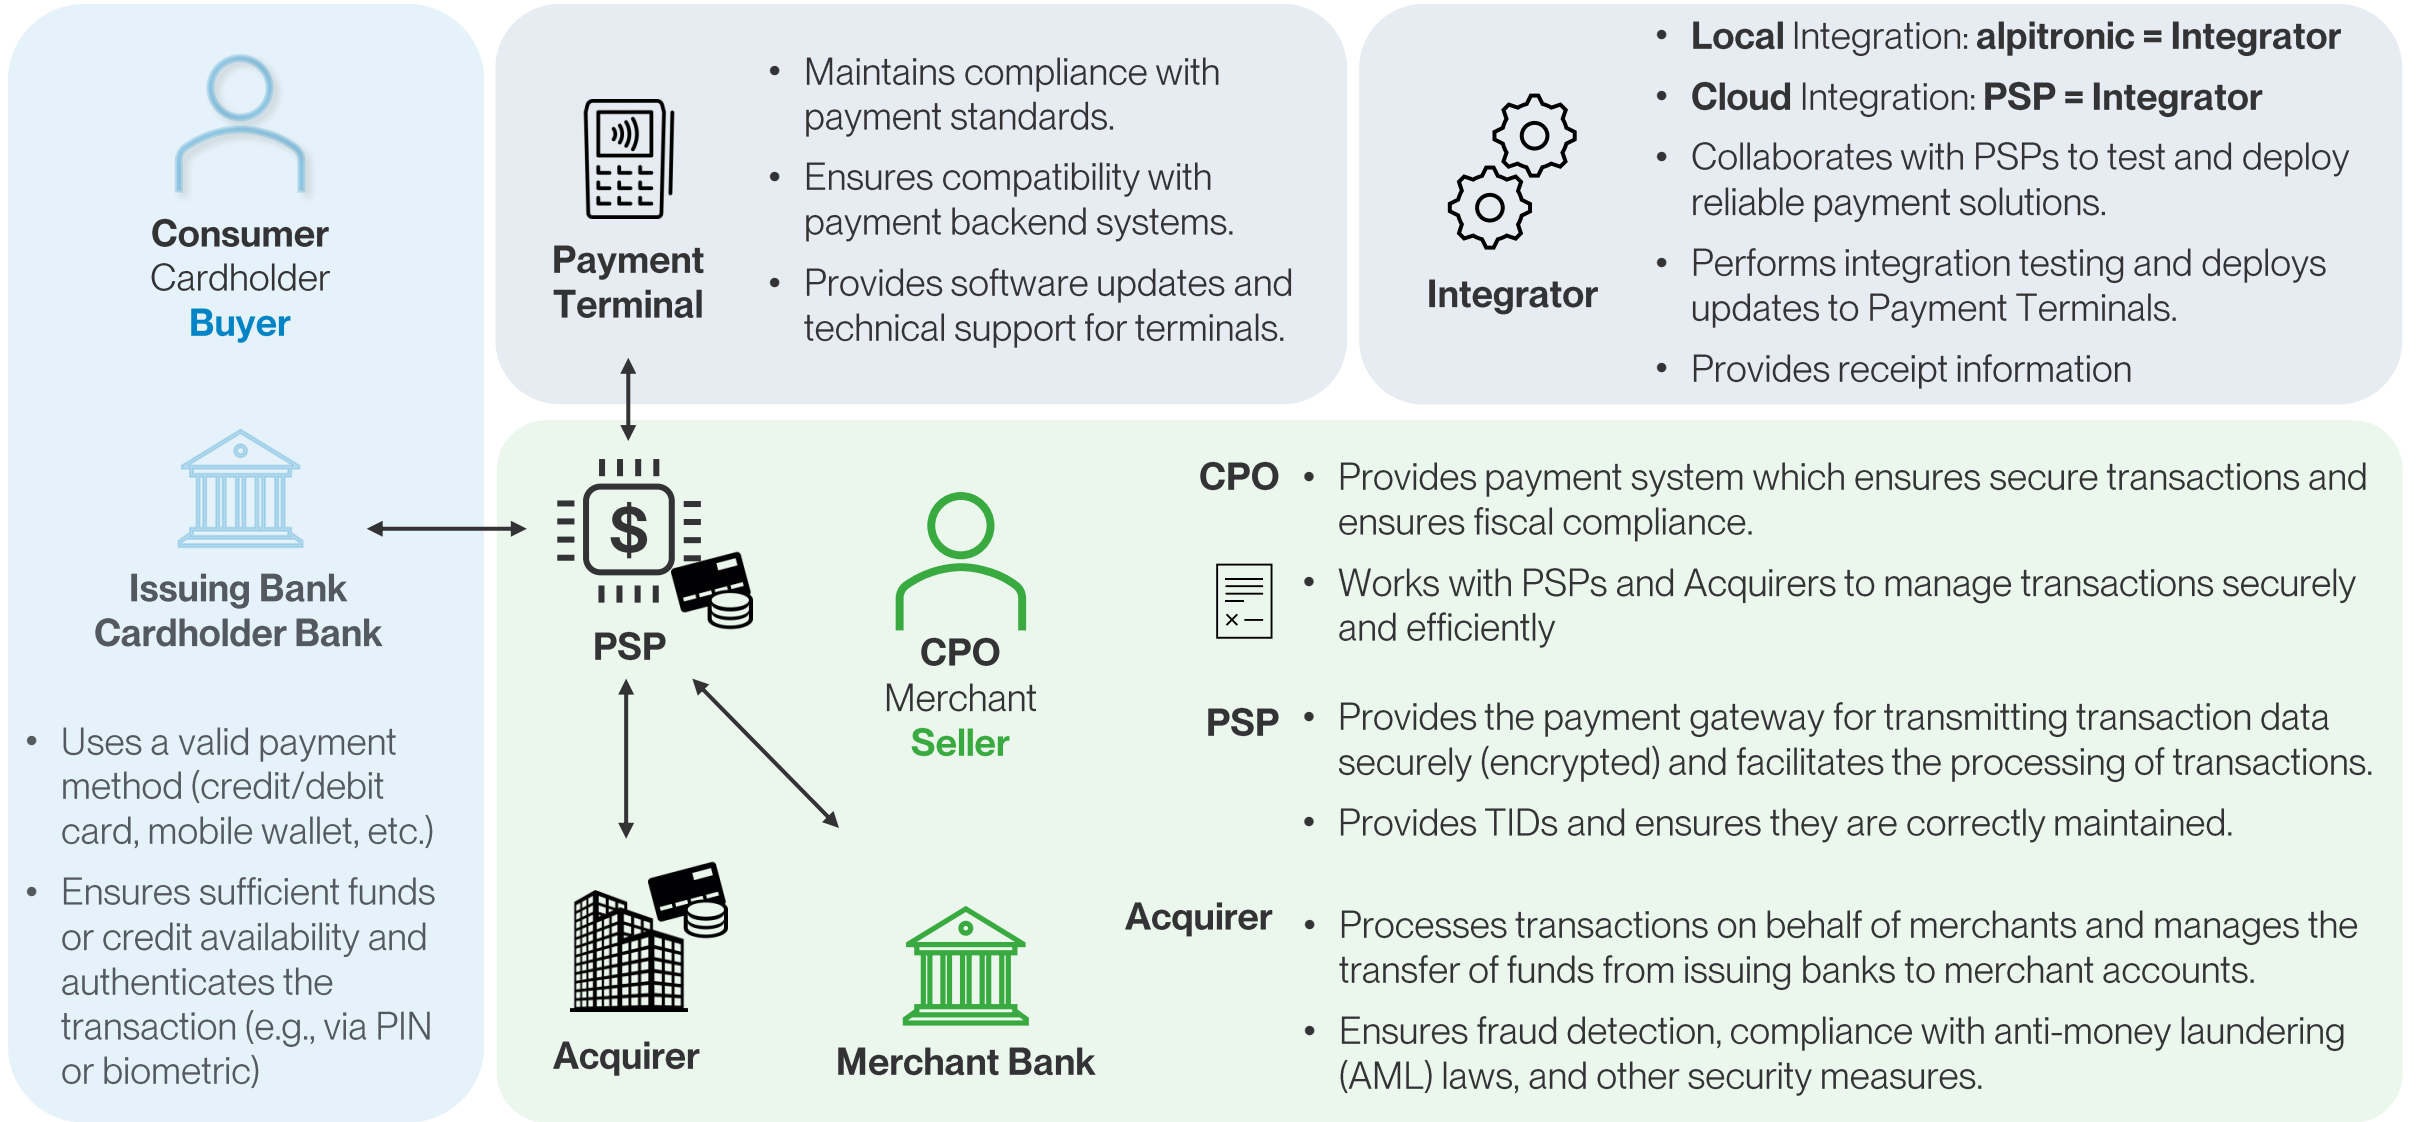

Acquirer Partnerships with
PSPs at CPOs corporate level

Security and Compliance
(Adherence to PCI DSS, GDPR, EAA,
and other regional regulations)

Responsibilities

PT Integration Case #1: Local

Hyperservices

Hypercharger initiates payment processing
Calculation of amount
Settlement of payment
Receipt creation

CPMS

Country specific
Fiscalization

PT Integration Case #2: Cloud

Hyperservices

Alpitronic SIM

VLAN

Internet connectivity

LAN

Client SIM

OCPP
Remote Start Transaction
Data of Charging session

POS Backend

CPMS

OCPI or
specific API

Receipt
Management
